Dear Guests

As you know at Guano Cave, we will always go the extra mile to ensure the safety of our guests.

Guano cave is implementing a program of constant cleaning and disinfecting of all our units, furniture, rest rooms etc. This will be done every time a guest will sit down and leave a unit or table or enter a bathroom and leave again. Door handles, counters, furniture will be regularly cleaned by disinfecting chemicals. All our crockery, cutlery and kitchen equipment will be disinfected and washed in water higher than 60 degrees. Our staff will be wearing masks and gloves. All our pools chlorine levels will be between 1.5 and 3ppm, although this is not a waterborne virus. Our laundry will be completely disinfected before placed in the units.

The advantage at Guano Cave Resort is that our units are free standing and Montagu is known for its dry, high temperatures and clean air, which is a natural defence against this virus.

If you have any special requirement before arrival, let us know and we will gladly assist where possible.

Regards

Guano Cave Team
